Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body proves with less speed and accuracy. Because of the weak and fregular action of the heart the blood moves more slowly, becomes impure and loses much of its line-mitaining properties, and muscles, tissues and nesses literally starve for lack of marishment. A slongish and polluted circulation is followed by a long train of bodily adments. Could feet, chilly sensations up and down the spine, poor

train of bodily admenta. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, acceness of the muscles, rheumatic pains, hard and fissured skin, face acces, chronic running ulcers on the lower limbs and other parts of the body—these and many other discuses poculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the budding up and particulation of the blood, thus adding strength and tone to the visal organs and quick, healthe action to the circulation.

S. S. Is, being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all masheme for old people. It is free from all manufal ingredients, and mild and pleasant in its action. It cores blood discusses of every character, even those inherited or contracted in early life. As the system gets under the influence of F. S. S. there is a marked improvement in the general health, and as richer and parer blood begins to circulate through the body the appetite improves, and there is a softeness and elasticity about the skin that you have not noticed for years; so, a begin to beak, pains in must be and joints grad-

ing and San Simon, from which off can here. They spent fast summer in this THE WESTERN TOWNS.
